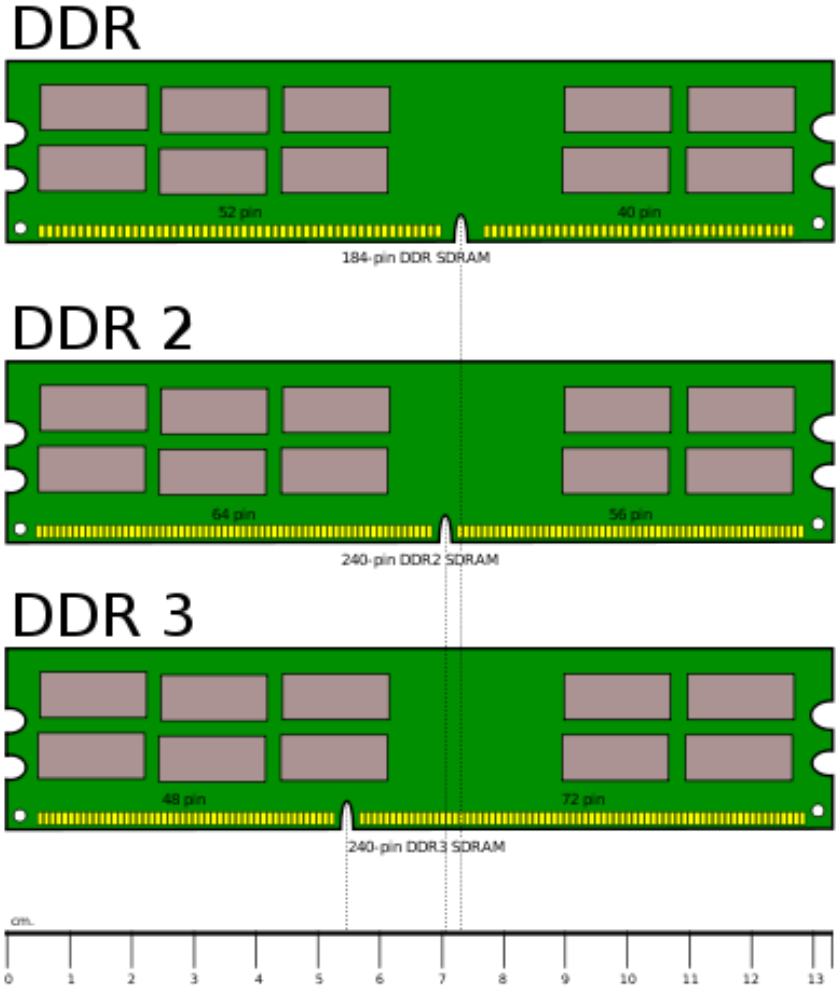
RAM
(aka “Memory”)

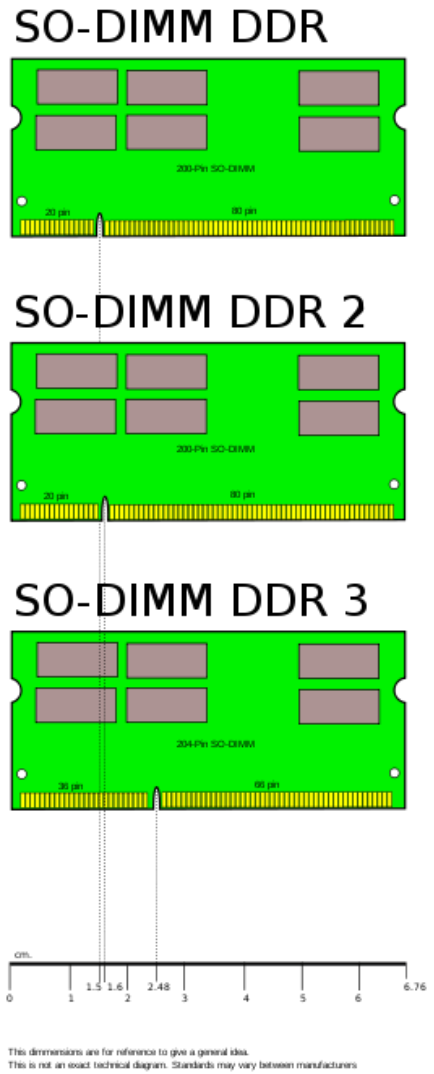
Most common type is Double Date Rate (DDR)

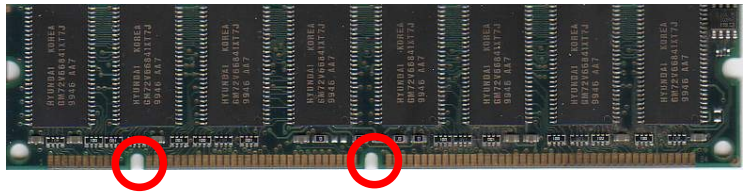
Comes in 3 “generations” (DDR, DDR2, DDR3)

May be full-sized DIMMS (left) or smaller SODIMMS (right, usually in laptops)

Slightly older types that may still see reuse include RAMBUS (below left) and SDRAM (below right)





RAMBUS (bottom) with Continuity RIMM (top) to fill any empty slots


SDRAM
AKA: PC100, PC133
